Designed by Norm. Architects, Frame is a modular system of bathroom consoles and furniture. Featuring a minimalist design, the flexible Frame system consists of a number of black graphic frames, customisable depending on your needs and functional purpose. The main steel structure is designed to accommodate the basin as well as a counter top in various material such as wood, LivingTec®, marble and stone, while the inside allows you to hang a varnished wood cabinet or a drawer for storage. Thanks to its versatility, Frame is a perfect solution for any living space.
